## MBS-30 Specifications

### Post (Aluminum):

- $\phi 6'' \times .188''$  wall aluminum tube (Mill Aluminum 6061T6)
- 35'-2" Overall Length (30'-8" out of ground sleeve)
- Weight = 141lbs./ea.
- All Hardware is RUSTPROOF

### Netting:

- Net: #AAE N420, 1-1/2" Sq. Knottless Nylon, FR, DBB, length to vary, 1/4" MFP Rope Border, UV protected and 1/4" cable hog tied to top of net

# MBS-30 Assembly Instruction Left End Post

**Collar Orientation  
Detail**

(Note: **ONLY** vertical cable collars should be turned away from netting)

## Installation Notes:

- Lower Collars:** From bottom of pole slide the lower vertical cable collar, lower horizontal collar and debris ring (*optional*) into position. To allow proper insertion into ground sleeve, lower most collar should be 54" from end of post. *Before securing collars into place make sure to rotate the lower vertical collar approx 40°.* (refer to diagram)
- Cleat:** Is to be installed so that it is on backside of post, opposite net. Screws will be inserted through post and cleat and secured on opposite of net side using thin Nylock hex-nuts and cap nuts. (refer to diagram)
- Mid Collar:** Note orientation of collar on post. From top of pole slide the open eyebolt collar into position (refer to diagram) and secure into place.
- Eyebolt:** Pulley system comes preassembled to eyebolt. Install washer onto eyebolt then insert eyebolt with washer through front side of hole at top of post. From opposite side secure eyebolt into place using a flatwasher and self-locking hex-nut. (refer to diagram)
- Upper Collar:** From top of pole slide the upper vertical cable collar into position (collar should rest on eyebolt washers). Before securing into place make sure to rotate the collar approx 40°. (refer to diagram)
- Make sure warning labels are present on goal posts.

## Assembly Instruction

### Posts to Groundsleeve

**Note:** number of inner posts may vary from what is shown.

*View from field of Play*

**Post / Groundsleeve  
Installation**

**Post / Groundsleeve  
Installation (fully seated)**

#### Installation Notes:

1. View above is from net side of post (*field of play*).
2. **Caution**, slowly lower posts into sleeves. Dropping post into sleeve may result in damage to the stop bolt.
3. Make sure all posts are orientated correctly. Pulley system towards field of play and cleat away from field of play. All lower horizontal cable collars should face field of play.
4. Once posts are correctly orientated, make sure the lower collars are properly orientated and secure them into place.

# **MBS-30**

## **Assembly Instruction**

### **Lower Horizontal**

### **Support Cable**

#### **Installation Notes:**

1. Refer to collar assembly diagram for further detail on collar and cable assembly.
2. Install Crimped Cable End to Right End Post collar using an anchor shackle.
3. Route cable to Left End Post. Snap cable into Pear Clips of the Inner Posts along the way
4. Before assembling Clamped Cable Loop End, fully open the turnbuckle.
5. With anchor shackle and thimble in place run cable thru the shackle as shown. Pull slack out of cable and mark vinyl sleeve approximately 4" from thimble end. Strip vinyl from mark location towards cable loop end.
6. With the slack still being pulled out of cable install and secure the cable clamps. The first clamp should butt up to the thimble, the second should be spaced approx. 1" on center from the first. Cable clamps must be gripping bare cable to ensure proper seating/grip.

#### **Clamped Loop End** **Detail**

# **MBS-30**

## **Assembly Instruction**

### **Multi-Section System**

#### **Net Preparation**

**Multi-Section System**  
**Corner Attachment**  
*(shown in raised position)*

#### **Installation Notes:**

*This instruction applies to multi-section systems, if assembling single section/net system proceed to "Net Attachment" page.*

- *assistance from a second person is required to completed this task.*
- *task should be completed prior to raising the net.*
- *Starting at top of the nets ensures alignment across the top edges of the nets being joined together.*
- *One cable tie per nets square is recommended.*

1. Starting with the top corners of Nets A & B, hold together both of the adjacent side rope borders and align the top rope borders of nets A & B.
2. Once the top borders of nets A & B are aligned. Secure both the vertical rope borders together as close as you can to the top rope border using provided cable tie.
3. Begin securing the vertical borders together using provided cable ties. Work your way down the net in about 2' sections, making sure that both vertical rope borders are taut as you proceed.

# MBS-30

## Assembly Instruction

### Net Attachment

**Note: When raising net, it must be done in increments across the entire span**

#### Installation Notes:

1. Lay net on ground across span of posts. Make sure net is centered across span of posts.
2. Using a Pear Clip Secure upper net corners to End Post Vertical Support Cables (as shown in Detail C)
3. Secure Brass Rings to top of net using Cable Clamp (as shown in Detail A). One ring and clamp per post and they should be centered as close as possible to its coinciding post.
4. After Brass Rings have been secured to net, clip ring into it's posts hoist system Pear Clip (as shown in Detail B).
5. As net is being raised make sure to secure net sides to the vertical support cables using provided Pear Clips (refer to Detail C). Pear Clips should be spaced approx. 12" or 9 net squares.
6. Once net has been completed raised tie hoist ropes onto cleat.

**Note: Hardware denoted "B" is included in item #3 "Hoist Rope"**
